# JAC Overview

The Juvenile Assessment Center of Lee County, also called the “JAC,” is located in downtown Fort Myers, Florida. The JAC was founded in 2003 through a collaborative community planning process. The JAC co-locates various agencies which serves to streamline the local juvenile justice system, to promote timely case processing, and to reduce the duplication of services. The JAC assists both “at risk” youth and arrested youth and their families. The JAC is operated by the Lee County Sheriff’s Office in partnership with the Lee County Board of County Commissioners and the Florida Department of Juvenile Justice. The physical facility and the JAC’s management is funded by the Lee County Board of County Commissioners. The JAC receives no state funding, although it indirectly benefits from state resources through its co-located partners.

The JAC is located in downtown Fort Myers, Florida and is part of the Lee County Justice Center Complex.

## BOOKING AND RECEIVING FACILITY

When a youth is arrested in Lee County, the arresting officer transports the youth to the Juvenile Booking Facility which is attached to both the JAC and to the Lee County Jail. The design of the facility allows for the sharing of the Lee County Sheriff’s Office’s booking staff between the juvenile booking area and the adult jail to maximize staffing resources. Arrested youth are kept separate from detained adults at all times. When an arrested youth is brought to the Juvenile Booking Facility he or she has his or her fingerprints, palm prints, and a booking photograph taken. Arrested youth who are charged with a felony offense also have a DNA sample taken.

Over 44% of the arrested youth in Lee County assessed as being at high risk for reoffending have a history of mental health problems.\*

## SCREENING AND ASSESSMENT

When arrested youth arrive at the Juvenile Booking Facility/JAC they are screened by Florida Department of Juvenile Justice (DJJ) intake staff to determine if they are eligible for secure detention. DJJ’s detention risk assessment considers a youth’s arrest history, the seriousness of the charges, and whether the youth is a flight risk. Based on the youth’s detention risk assessment score, he or she may be taken to secure detention, placed on home detention, or directly released to his or her parent or guardian. DJJ staff also screen each arrested youth for their risk to offend again and for any substance abuse and/or mental health issues. Based on this screening, DJJ staff may recommend that the youth receive a more in-depth assessment from one of the JAC’s community partners.

33% of arrested youth in Lee County report that they are currently using drugs. 13% say their current drug use is causing life problems.\*

## PROMOTING PUBLIC SAFETY

Before the JAC opened in 2003, law enforcement officers were responsible for supervising arrested youth who were not detained until the youth could be released to the custody of his or her parents. Law enforcement officers are now able to deliver all arrested youth to the JAC and return within a few minutes to road patrol or to help safeguard the community's schools.

Department of Juvenile Justice staff at the JAC track all arrested youth who are placed on home detention and disseminate this information to local law enforcement agencies. This allows law enforcement officers to provide increased monitoring and supervision of youth who are placed on home detention.

During the 2019-20 school year, 186 youth were arrested at school.

## LINKING YOUTH AND FAMILIES TO SERVICES

The JAC's main phone number at (239) 258-3450 serves as an information and referral line for parents seeking help for their youth and for others requesting information about services available for local youth and families. The JAC maintains a Community Resource Guide of youth related services that can be accessed from the JAC's website at [www.swfljac.org](http://www.swfljac.org).

## COMMUNITY ASSESSMENT

The JAC tracks trends in juvenile crime and risk factors for delinquency within the community. JAC staff work collaboratively with community partners to identify emerging trends, gaps in services, and resources for the prevention and intervention of youth crime.

## INFORMATION AND EDUCATION

The JAC serves as a hub for information about the local juvenile justice system. The JAC's website, [www.swfljac.org](http://www.swfljac.org), provides information about the local juvenile justice system for parents, law enforcement officers, and community partners. The JAC has developed brochures to assist in answering some of the most frequently asked questions from parents and community partners. These are available in the JAC's lobby and also on the JAC's website. Some are available in Spanish. The JAC broadcasts prevention oriented Public Service Announcements (PSA's) in its lobby. Some of the PSA's were donated by community partners. The JAC provides tours of the JAC and presentations about the juvenile justice system to a variety of school and community groups.

Typically, the JAC is able to provide tours and presentations about the local juvenile justice system to schools and community groups. However, due to Covid-19, there were only 15 tours conducted in 2020.

## PREVENTION

### PREVENTION COUNSELING

Lutheran Services of Florida co-locates one counselor at the JAC who provides individual and family counseling with non-arrested youth and their families.

### SNAP (STOP NOW AND PLAN)

Lutheran Services of Florida provides two counselors at the JAC for the SNAP program. It is an evidence-based, cognitive-behavioral, and gender-based program for troubled children ages 6 to 11. It is designed for children who are engaging in aggressive, negative behavior and/or have come into disciplinary contact with authority figures at school or in the community. It helps children and their parents learn how to effectively manage their emotions and “keep problems small”.

### CINS/FINS

Lutheran Services provides a case manager at the JAC for the Child in Need of Services/Families in Need of Services program. This program works with youth who show troubling behavior including running away from home, truancy, and ungovernable behavior.

### TRUANCY INTERVENTION PROGRAM (TIP)

The TIP program is coordinated by the JAC in partnership with the School District of Lee County. TIP works with families whose elementary or middle school aged youth are at risk of becoming habitually truant. TIP works with the families to improve school attendance or to proceed toward judicial action.

### TRUANCY UNGOVERNABLE RUNAWAY NETWORK (TURN)

TURN works with families of youth that are habitually truant, ungovernable, or runaways. TURN works with the families to improve the youth’s behavior or to proceed toward judicial action. TURN is coordinated by Lutheran Services of Florida in partnership with multiple community agencies.

183 youth participated in the TIP and TURN programs at the JAC in 2020.

109 youth committed crimes while they were truant from school during 2020.

The JAC provides free drug test kits to parents to use as a drug prevention tool. In 2020, the number of kits distributed (427) decreased due to Covid-19 restrictions.

## EARLY INTERVENTION

### CIVIL CITATION

The JAC operates a civil citation program which provides an alternative to an arrest for youth who commit minor crimes. Law enforcement officers have the discretion to issue a youth a civil citation rather than make an arrest if a youth commits a misdemeanor crime that meets the criteria. Youth must meet with the Civil Citation Coordinator within one week of being issued a civil citation. Youth are typically assigned community service hours and/or a service learning project as a consequence for their offense. Depending on the case, youth may be referred to the CHAMPS Program at the JAC or to other programs and services in the community to assist youth in remaining crime free.

81 youth were issued a Civil Citation in Lee County in 2020, a 31% decrease from 2019.

### CHAMPS (CHOOSING HEALTHY ATTITUDES & MOTIVATING PERSONAL SUCCESS)

The CHAMPS Program at the JAC works with youth in the Civil Citation Program with substance abuse issues. The program provides screening, youth counseling, peer support groups, random drug testing, monitoring of school progress and attendance, short term case management, and referrals to other programs and services in the community for continued services.

### SUBSTANCE ABUSE INTERVENTION

The Hanley Center facilitates an early intervention program at the JAC for adolescents with a substance abuse issue.

Due to Covid, the number of youth receiving case management services and/or participating in peer support groups through the CHAMPS program was greatly impacted. A total of 83 youth participated in CHAMPS in 2020.

## INTERVENTION

### MORAL RECONCILIATION THERAPY (MRT)

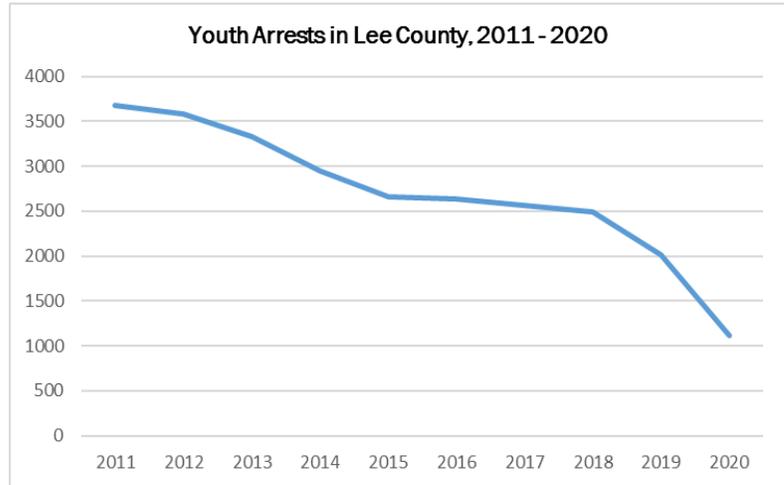

Through a partnership with the Lee County Department of Human and Veterans Services, MRT is provided at the JAC. The MRT program works primarily with first time juvenile offenders who have committed a violent crime such as a misdemeanor battery or an aggravated battery. Youth are approved for the program by the Office of the State Attorney. MRT is an evidence based, 12-step cognitive behavioral intervention that seeks to reduce recidivism by increasing moral reasoning. This program also provides anger management groups and parent support groups.

In 2020, 168 youth were arrested for domestic violence.

# Data Trends

## TOTAL ARRESTS

In 2020 the JAC received 1,118 arrested youth. This number includes youth who were arrested more than one time during the year. It also includes youth who were screened as eligible for secure detention from Charlotte, Hendry, and Glades Counties. Youth from these counties are transported to the JAC prior to being transported to the Southwest Florida Regional Detention Center in Fort Myers. This does not include youth over the age of 18 arrested on juvenile sanctions.

**Data trends for 2020 were significantly impacted by Covid-19. Several modifications to standard practice were necessary to ensure the health and safety of arrested youth and facility staff.**
